Training Detail Key

Available On-Site Training by The Reis Group Employee /
Consultants

Available Interactive Online Training

Available Online Safety Video

Compliance courses that are provided by The Reis Group are intended to satisfy regulatory requirements, where applicable. However, requirements may vary based on state, industry, and work performed. Additionally, this catalog includes all trainings offered by The Reis Group; availability of specific trainings will vary by product. Contact Lilly James for help determining your business's specific training needs and what products are right for you.

Abusive Workplace Conduct Prevention

This training defines abusive conduct and explores strategies for dealing with it. It includes the negative effects, how to recognize it, how to report it, and ways everyone can improve the workplace environment. Provided in English and Spanish.

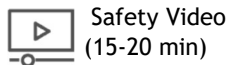

Accident Investigation

This program on Accident Investigation provides employees with the information that they need to understand the goals of an accident investigation, the process itself, and how they can participate in the process to help make their workplace safer. Provided in English

Active Shooter - Surviving an Attack

This program on Active Shooter - Surviving an Attack provides step-by-step explanations of the survival techniques that law enforcement agencies recommend helping people get through an active shooter incident safely. Provided in English

Active Shooter Preparedness

This training discusses how to prepare for the threat of active shooters through an emergency action plan. It also includes a strategy for responding to active shooter incidents and warning signs of potentially violent behavior. Provided in English and Spanish

ADA Employment Decisions

This training covers the requirements in the Americans with Disabilities Act (ADA). It includes guidance for job interviews, reasonable accommodations, direct threats, and requirements for leave and return to work. Provided in English

Advance Care Planning - Building on Advance Directives

This training explores Advance Care Planning, including life care and quality of life planning. Practical guidance and tools are provided to facilitate Advance Care Planning conversations and discussion of barriers and solutions. 1 CEU. Provided in English

Advance Directives

This training discusses how Advance Directives provide legal documentation of the health care wishes of residents and how they ensure health care choices are given voice in the event that resident becomes unable to express them. 1 CEU. Provided in English

Advocacy - Beyond Resident Rights

Explores ways in which healthcare professionals can expand advocacy efforts to not only safeguard the rights of residents, but truly enhance the quality of their lives. 1 CEU. Provided in English

Aerial Lifts and Elevated Platform Safety

This training provides knowledge on aerial lifts and platform safety, including information on personnel responsibilities, types of aerial lifts, hazard assessments and inspections, and common hazards and controls. Provided in English.

Aerial Lifts in Industrial and Construction Environments

This program reviews the various types of aerial lifts, makes employees aware of the hazards that are associated with these lifts and gives them the information that they'll need to work safely whether they're using a lift or working around one. Provided in English and Spanish

Aggressive Driving for CMV Drivers

This training addresses the dangers of aggressive driving and how drivers can keep themselves safe from this common hazard. It includes a definition of aggressive driving and strategies for handling aggressive drivers and staying calm. (CMV Series). Provided in English

Alcohol in the Workplace (FMCSA - Compliant)

This FMCSA-compliant training covers regulations on alcohol abuse in the workplace for CMV managers and drivers. It includes signs and symptoms of alcohol abuse, making a reasonable suspicion determination, and testing procedures. (49 CFR §382.603). Provided in English

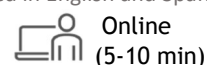

Ancillary Services – Guidelines for Healthcare Providers

Access to ancillary services may significantly impact the overall quality of life of residents, enabling function, emotional support, and the ability to engage in the life of the facility to the greatest extent possible. 1 CEU. Provided in English

Anti-Harassment Manager Overview

This training provides an overview of manager responsibilities, state-specific requirements for training (if applicable), and which courses in the Anti-Harassment series are needed for compliance. Provided in English and Spanish

Anti-Harassment Training / Sexual Harassment Prevention Training

This training defines unlawful harassment in the workplace as well as how to recognize, prevent, and appropriately report it. It meets requirements in all 50 states including CA (SB1343 and SB1300), CT (SB3), and NY. Provided in English and Spanish

Online
(45-60 min)

(60 min)

Client: Complimentary

Non-Client: \$150

Arc Flash

This program on Arc Flash focuses on what arc flash is, its hazards and how employees can avoid it on the job. Provided in English

Safety Video
(10-15 min)

Asbestos Awareness

This program discusses the health risks associated with asbestos, how to recognize asbestos hazards in the workplace how to protect against exposure to asbestos, and how to comply with the OSHA Asbestos Standard training requirements. Provided in English.

Ron Coons

(30 min)

\$300

Back Safety

This Back-Safety program emphasizes the importance of overall back care, both at work and at home, including exercises and weight control. Provided in English and Spanish.

Safety Video
(10-20 min)

Back Safety in Industrial Environments

This program on Back Safety in Industrial Environments discusses situations that can lead to back injuries and what employees can do to avoid them, both at work and at home. Provided in English and Spanish

Safety Video
(15-20 min)

Back Safety in Office Environments

This program on Back Safety in Office Environments discusses situations that can lead to back injuries and what employees can do to avoid them, both at work and at home. Provided in English

Safety Video
(15-20 min)

Basic First Aid Awareness

This training covers basic first-responder techniques to keep people safe and alive until EMS arrives. It includes information on many different emergencies, such as heart attack, choking, burns, and appropriate responses, including CPR. Provided in English

Online
(15-20 min)

Battery Charging and Jump Starting

This training discusses guidelines for safely charging batteries and jump-starting vehicles. It includes information on hazards, correct procedures, required PPE, and storage and handling practices. Provided in English

Online
(5-10 min)

Behavior Management - Using Root Cause Analysis to Determine Underlying Motivations

Challenging behaviors among residents with dementia and delirium are simply their way of communicating that they are in pain, frightened, hungry, or unmet need. This course focuses on what the behavior is attempting to communicate. 1 CEU. Provided in English

Online
(20-30 min)

Bloodborne Pathogens

This training covers protection against common types of bloodborne pathogens, situations where pathogens pose a hazard, and protection. Other course topics include personal protective equipment (PPE), the Hepatitis B vaccine, and incident response. Provided in English.

Ron Coons

(30 min)

\$300

Bloodborne Pathogens in Commercial and Light Industrial Facilities

This program on Bloodborne Pathogens in Commercial and Industrial Facilities provides essential information while assisting in fulfilling the training requirements contained in the OSHA Bloodborne Pathogens Standard. Provided in English and Spanish

Safety Video
(20-25 min)

Bloodborne Pathogens in First Response Environments

This program on Bloodborne Pathogens in First Response Environments provides essential information while assisting first responder organizations in fulfilling the training requirements contained in the OSHA Bloodborne Pathogens Standard. Provided in English and Spanish

Safety Video
(25-30 min)

Bloodborne Pathogens in Healthcare Facilities

This Bloodborne Pathogens in Healthcare Facilities program has been specifically created to assist facilities in fulfilling the OSHA Bloodborne Pathogens Standard's (29 CFR Part 1910.1030) training requirements. Provided in English and Spanish

Safety Video
(25-30 min)

Bullying and Other Disruptive Behaviors for Managers and Supervisors

This program on Bullying and Other Disruptive Behaviors for managers and supervisors provides managers and supervisors with the information to help prevent this type of behavior in their department and deal with it when it does happen. Provided in English

Safety Video
(20-25 min)

Bullying and Other Disruptive Behaviors for Employees

This program on Bullying and Other Disruptive Behaviors for Employees provides the information employees need to understand this type of behavior and know how to shut it down when it happens. Provided in English and Spanish.

Safety Video
(15-20 min)

Capacity Versus Competency

Staff need to differentiate between competence and capacity and to apply it on a daily basis. This course provides the knowledge, skills and abilities necessary to make informed decisions concerning the competence and capacity of residents. 1 CEU. Provided in English.

Online
(20-30 min)

Cargo Securement for CMV Drivers

This training discusses the specifics of the North American Cargo Securement Standard and guides CMV operators through requirements for securing cargo, types of securement systems, and necessary inspections. (CMV Series). Provided in English.

Online
(15-20 min)

Caught-In/Between Hazards in Construction Environments

This program on Caught-In/Between Hazards in Construction Environments provides the information employees need to recognize the caught-in/between hazards that are associated with construction tasks and avoid them before accidents happen. Provided in English and Spanish

Safety Video
(15-20 min)

Census Challenges - Creative Approaches to Optimizing Census!

During these times, we seek to intensify our marketing and outreach efforts in order to drive census. The question that we must be able to answer however, is how effective our marketing and outreach strategies within the marketplace are. 1 CEU. Provided in English.

Online
(20-30 min)

Chair Safety

This training describes the importance of chair inspections to prevent injury. Provided in English and Spanish.

Online
(15 min)

Commercial Driving Safety - Photographing Accidents

This training goes through the steps to take if a driver is involved in a motor vehicle accident and best practices for photographic documentation of an accident scene. (CMV Series). Provided in English.

Online
(30 min)

Commercial Livery Driving: Passenger Safety

This training describes vehicle preparation for commercial livery drivers. This course covers proper procedures, communicating with passengers, and dealing with difficult passengers. Provided in English and Spanish.

Online
(30 min)

Commercial Livery Driving: Workplace Violence

This training provides commercial livery drivers with information on preventing workplace violence on the job. It discusses both preventive measures and what to do in the event of an incident. Provided in English and Spanish.

Online
(30 min)

Communicating with Customers

Covers the lawful methods for directing commercial phone calls, text messages, or emails to large volumes of customers. Include the government rules and regulations pertaining to the Federal Do Not Call List (DNC) and the CAN-SPAM law. Provided in English.

Online
(20-30 min)

Communication - Powerful Tools for Communicating with Residents with Dementia and/or Delirium

This webinar will help you better understand how your residents, interpret both verbal and (of greater importance) non-verbal communication and introduce several powerful communication techniques effective with cognitive impairment. 1 CEU. Provided in English.

Online
(20-30 min)

Compressed Gas Cylinders

This program on Compressed Gas Cylinders provides the information that employees need to work safely with these potentially hazardous storage containers and the gases inside them. Provided in English and Spanish.

Safety Video
(20-25 min)

Compressed Gas Safety for Employees

This training discusses the safe handling of compressed gas cylinders. It includes common hazards of working with compressed gas, training and preparedness, safe practices for use and storage, safety devices, and inspection and monitoring guidelines. Provided in English and Spanish.

Computer Workstation Safety

This program on Computer Workstation Safety reviews the safe use of computers and offers practical solutions to many potential problems. Provided in English and Spanish.

Conducting Effective Interviews

This training gives an overview of best practices and legal standards associated with interviewing. It includes preparation, behavioral interviewing, lawful and unlawful topics, and evaluation of candidates. Provided in English.

Conducting Effective Interviews Self-Evaluation Tool

This self-evaluation tool helps to review interviewing process and technique. It is designed to be taken 30 - 90 days after completing Conducting Effective Interviews and only after conducting one or more interviews since course. Provided in English.

Confined Space Entry

This program addresses the major areas of employee training required by OSHA's Permit Required Confined Space Regulation (29 CFR part 1910.146) and includes information on Confined Spaces in Construction regulation (CFR 29 1926 Subpart AA). Provided in English and Spanish.

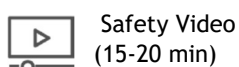

Confined Space Entry Awareness

This training covers basic confined space entry procedures and includes information on roles and responsibilities, common hazardous conditions and controls, atmospheric testing, and rescue procedures. Provided in English.

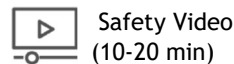

Conflict Resolution in Industrial Facilities

This Conflict Resolution in Industrial Facilities program discusses the techniques and strategies that can be used to limit the damage and disruption conflict can sometimes cause in the workplace. Provided in English and Spanish.

Conflict Resolution in the Office

This Conflict Resolution in the Office program discusses the techniques and strategies that can be used to limit the damage and disruption conflict can sometimes cause in the workplace. Provided in English and Spanish

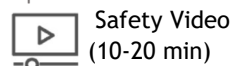

Crane Rigging Basic Safety

This training provides information on rigging safety, inspection, sling and rope types, steel erection rigging, hitches, equipment limits, and hand signals. Provided in English and Spanish.

Crane Safety

This Crane Safety program points out to employees that over 90% of crane-related accidents are caused by human error, and that they are the key to preventing these incidents. Provided in English and Spanish.

Crane Safety in Construction Environments

This Crane Safety in Construction Environments program points out to employees that over 90% of crane-related accidents are caused by human error, and that they are the key to preventing these incidents. Provided in English and Spanish.

Creating a 4 Star Dining Experience - Nutrition, Hydration and the Resident with Cognitive Impairment

To create a truly successful dining experience requires that a process approach is embraced, including the social and sensory aspects of the mealtime experience - rather than only the nutritional aspects. 1 CEU. Provided in English

Creating a Successful Technology-Based Brain Fitness Program for Older Adults

This seminar addresses how to successfully implement a computer-based brain fitness program, for widespread use by residents in a senior living environment. 1 CEU. Provided in English.

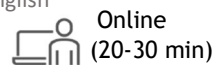

Cultural Diversity - Supporting Culturally Diverse Residents

As a multicultural society, we have come to embrace cultural diversity and to celebrate the rich traditions this diversity brings. Discusses recognizing, embracing and responding to the cultural diversity of the ever-changing resident population. 1 CEU. Provided in English.

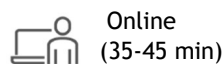

Culture Change - Creating A Climate of Care That Is Person Centered, Person Specific and Person Directed

As a multicultural society, we have come to embrace cultural diversity and to celebrate the rich traditions this diversity brings. Discusses recognizing, embracing and responding to the cultural diversity of the ever-changing resident population. 1 CEU. Provided in English

Data Privacy and Information Security

Covers protecting Personal Health Information (PHI), working with confidential information, physical safeguards, types of cyber risks and how to prevent them, protecting company assets, and reporting incidents. Provided in English.

Dealing with Death and Dying - Implications for the Care Provider

As care providers, we strive to develop relationships with our residents - and to come to know our residents as individuals. How then, do we deal with the inevitable grief that accompanies the death of those we have come to care for? 1 CEU. Provided in English.

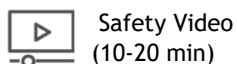

Dealing with Drug and Alcohol Abuse for Employees

This program on Dealing with Drug and Alcohol Abuse for Employees discusses the hazards of substance abuse, how employees can avoid them and what they can do to help keep their workplace drug and alcohol free. Provided in English and Spanish

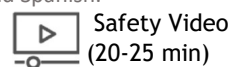

Dealing with Drug and Alcohol Abuse for Employees in Construction Environments

This program discusses the hazards of substance abuse, how employees can avoid them and what they can do to help keep their job site drug and alcohol free. Provided in English and Spanish.

Dealing with Drug and Alcohol Abuse for Managers and Supervisors

This program for managers discusses drug and alcohol abuse, the damage it causes to workers and the businesses that employ them, and what should be done to create and maintain a drug and alcohol-free workplace. Provided in English and Spanish.

Dealing with Drug and Alcohol Abuse for Managers and Supervisors in Construction Environments

This program for managers in construction environments discusses drug and alcohol abuse, the damage it causes to workers and the businesses that employ them, and what should be done to create and maintain a drug and alcohol-free job site. Provided in English and Spanish.

Dealing with Hazardous Spills

This program on Dealing with Hazardous Spills helps workers understand the hazards that can be associated with HAZMATs and the cleanup procedures that can mitigate them. Provided in English and Spanish.

Dementia and Delirium - Diagnosis, Misdiagnosis and What We Need to Know

As health care providers, we are often called upon to differentiate between dementia and delirium. This course covers how to identify and accurately differentiate between dementia and delirium. 1 CEU. Provided in English.

Discharge Planning - Guidelines for Care Providers

Discusses discharge planning with a focus on balancing the goals and rights of the resident, and the desire of the IDT to ensure that residents have the support and resources necessary for a safe discharge. 1 CEU. Provided in English.

Discipline on the Job

This training discusses enforcing and communicating policies and procedures. It includes manager responsibilities, the investigation process, legal considerations, and documentation requirements. Provided in English.

Distracted Driving

This Distracted Driving program provides the information employees need to drive cars, vans and small trucks safely, both on and off the job. Provided in English and Spanish.

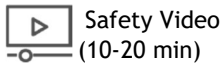

Distracted Driving for CMV Drivers

This training covers the effect distractions have on driver attention and to stopping ability. Distractions covered include physical and environmental distractions, driver aggression, and driver impairment. (CMV Series). Provided in English.

Diversity in the Workplace for Employees

This program on Diversity in the Workplace for Employees discusses diversity, the obstacles that can prevent people from accepting it, and what employees can do to embrace and encourage diversity in their workplace. Provided in English and Spanish.

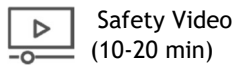

DOT Hazardous Materials Training (EPA)

This training covers the requirements for transporting hazardous materials in accordance with DOT standards for general industries. It satisfies General Awareness, Safety Training, and Security Awareness Training requirements. Provided in English.

DOT HAZMAT General Awareness

This program discusses the Hazardous Materials Regulations established by the U.S. Department of Transportation (DOT) and how they affect each stage of the transportation process, and how to prevent HAZMAT incidents from occurring. Provided in English and Spanish.

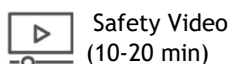

DOT HAZMAT Safety Training

This program discusses the Hazardous Materials Regulations established by the U.S. Department of Transportation (DOT), how they affect each stage of the transportation process, and what employees can do to help prevent incidents from occurring. Provided in English and Spanish.

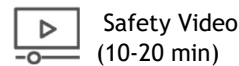

DOT HAZMAT Security Awareness

This program discusses the Hazardous Materials Regulations established by the U.S. Department of Transportation (DOT) and how they affect each stage of the transportation process, and how to prevent HAZMAT incidents from occurring. Provided in English and Spanish.

DOT In-Depth HAZMAT Security

This program on DOT In-Depth HAZMAT Security focuses on what employees can do to help prevent theft, hijacking and sabotage of HAZMATs by terrorists. Provided in English and Spanish.

Driver Fatigue

This training informs employees of the dangers of driver fatigue, symptoms and warning signs, natural sleep patterns, and how to manage and control fatigue. (CMV Series). Provided in English and Spanish.

Driver Safety for 15 Passenger Vans

This training explains the increase risks associated with 15-passenger vans. Understanding these specific risks enables drivers to keep their passengers safer and reduces the frequency of costly accidents. Provided in English and Spanish.

Driver Safety: 6-Hour Defensive Driving

This training covers safe driving habits, blind spots, following distances, driving at night, adverse weather conditions, and sharing the road. Provided in English.

Lilly James
(6 Hours)
\$20/Person M-F
\$40/ Person on Weekends

Online
(6 Hours)
\$24.95/Person

Driver Safety Series: Distracted Driving

This training discusses common distractions and how to identify other distracted drivers on the road. It includes electronic devices, mirror adjustments, eating, aggressive driving, stress, fatigue, and drug use. Provided in English and Spanish.

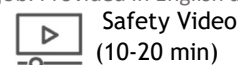

Driver Safety Series: Driver Preparedness

This training educates employees on vehicle inspections, safety systems, and emergency preparedness. This material aims to prepare non-commercial drivers to be prepared for any incident that may occur on the road and to reduce their overall risk. Provided in English and Spanish.

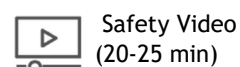

Driving Defensively

This Driving Defensively program provides the information employees need to drive cars, vans and small trucks safely, both on and off the job. Provided in English and Spanish.

Driving Safety

This Driving Safety program provides the information employees need to drive cars, vans and small trucks safely, both on and off the job. Provided in English and Spanish.

Driving Safety: The Basics

This Driving Safety: The Basics program provides the information employees need to drive cars, vans and small trucks safely, both on and off the job. Provided in English and Spanish.

Drug-Free Workplace Series: Drug-Free Workplace Programs

This training gives an overview on the elements of a Drug and Alcohol-Free Workplace Program. It addresses policies, training, drug testing protocols, and best practices. This is the first course in the Drug-Free Workplace course series. 1/2. Provided in English.

Drug-Free Workplace Series: Reasonable Suspicion Testing

This second training in the Drug-Free Workplace course series outlines the reasonable suspicion drug and alcohol testing process, including observation and documentation, employee consent, test results, symptoms, and appropriate confrontations. 2/2. Provided in English.

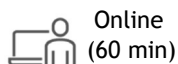

Drugs and Alcohol in the Workplace (FMCSA - Compliant)

This training covers FMCSA regulations on the use of drugs and alcohol in the workplace for CMV managers and drivers. It includes regulations, signs and symptoms, and how to determine reasonable suspicion. FMCSA Compliant (49 CFR §382.603). Provided in English.

Drugs in the Workplace (FMCSA-Compliant)

This training covers FMCSA regulations on the use of drugs in the workplace for CMV managers and drivers. It includes drug classes, signs and symptoms of use, reasonable suspicion determinations, and testing. FMCSA Compliant (49 CFR §382.603). Provided in English.

Dynamic Volunteers - Building a Successful Volunteer Program

Building a dynamic volunteer program is a challenge to all facilities. The benefits are numerous and justify the investment of time and effort on the part of the volunteer coordinator. 1 CEU. Provided in English.

Electrical Safety

This Electrical Safety program reminds employees about electrical hazards they may face in their jobs and provides the information they need to work safely around low voltage electricity. Provided in English and Spanish.

Electrical Safety Awareness

This training discusses the characteristics of electricity and how to minimize risk. It includes common electrical hazards in the workplace, electrical injuries, emergency response procedures, and OSHA's and NFPA's roles in electrical safety. Provided in English.

Electrical Safety in the Laboratory

This Electrical Safety in the Laboratory program emphasizes the need for safety when using electricity and discusses how to reduce the potential for accidents involving electrical shock, fire and explosions. Provided in English.

Electrocution Hazards in Constriction Part I

The first in a two-part series on electrocution hazards, PART I discusses the major types of electrocution hazards, and how employees can protect themselves from electrical hazards and electrocution in construction environments. Provided in English and Spanish.

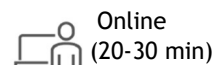

Electrocution Hazards in Construction Part II

The second in a two-part series on electrocution hazards, PART II discusses the types of hazards, and how employees can protect themselves in construction environments, and employers' responsibilities in these areas. Provided in English and Spanish.

Elopement Prevention - 10 Strategies for Preventing Wandering and Elopement

This course provides facility staff with the knowledge, skills and abilities to reduce the potential for unsafe wandering and elopement among cognitively impaired residents. 1 CEU. Provided in English.

Emergency Action Planning for Managers

This training includes information on how to develop and deploy an effective emergency action plan, assign responsibilities, and address and prepare for potential emergency situations. Provided in English and Spanish.

Emergency Planning

This program on Emergency Planning assists facilities in complying with existing OSHA, SARA Title III, and numerous state regulations and helps them prepare for potential emergency situations. Provided in English and Spanish.

Safety Video
(10-20 min)

Emergency Preparedness

This training describes general response procedures associated with the following types of emergencies: fires, explosions, facility evacuations, spill response, chemical overexposure, and natural disasters. Provided in English.

Ron Coons
(30-60 min)
\$300

Employee Evaluations

This training discusses conducting fair and productive employee evaluations. It includes manager responsibilities, evaluation structure, communication skills, setting objectives, and documentation requirements. Provided in English.

Online
(5-15 min)

Enabling Freedom- The Role of the Prosthetic Environment in the Care of Residents with Dementia and Delirium

This course discusses how attending to environmental clues, we may support functional independence, mobility, perceived control, perceived security, and even cognitive functioning. Resulting in injury, mood and behavior problem reduction. 1 CEU. Provided in English.

Online
(20-30 min)

Ergonomics Awareness

This training educates employees on work-related musculoskeletal disorders, elements of an ergonomic safety program, ergonomic stressors commonly found in the workplace, and actions to take that will minimize injuries. Provided in English.

Ron Coons
(30 min)
\$300

Ethics in the Workplace

For all employees and management, this training covers the benefits of ethical behavior in the workplace and specific ways to demonstrate it. Provided in English.

Online
(15-25 min)

Evacuation Procedures

This program on Evacuation Procedures provides the information employees need to learn what steps to take to act quickly and safely during an evacuation. Provided in English and Spanish.

Safety Video
(15-20 min)

Exempt vs Nonexempt Classification

This training explores strategies that employers can use to properly classify an employee as exempt or nonexempt based on factors such as salary, job classification, and job duties. Provided in English.

Online
(5-10 min)

Eye and Face Protection for Managers

This training provides information on providing proper eye and face protection for employees. Designed for managers, it describes how to select, inspect, maintain and store personal protective equipment (PPE), and train employees on its proper use. Provided in English and Spanish.

Online
(30 min)

Eye Safety

This program on Eye Safety provides employees with the information they need to recognize and avoid eye hazards that they can encounter in their workplace. Provided in English and Spanish.

Safety Video
(10-20 min)

Eye Safety in Construction Environments

This program on Eye Safety in Construction Environments provides employees with the information they need to recognize and avoid eye hazards that they can encounter on a job site. Provided in English and Spanish.

Safety Video
(10-20 min)

F-329 Unnecessary Medication and Behavioral Alternatives to Pharmacological Intervention

Explores the use (and misuse) of pharmacological intervention in the care of residents with dementia and/or delirium-based behaviors and the importance of attempting behavioral (non-drug) interventions. 1 CEU. Provided in English.

Online
(20-30 min)

Fair Labor Standards Act (FLSA)

This training provides employers with information regarding child labor laws, exempt vs nonexempt employees, and overtime calculations. Provided in English.

Online
(5-10 min)

Fall Management - A Guide for Health Care Providers

This course covers how to reduce the chance that an at-risk resident will fall, and what we can do to reduce fall related injuries. 1 CEU. Provided in English.

Online
(20-30 min)

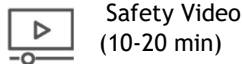

Fall Prevention - Top 10 Tips for Reducing Fall Related Injuries

Within this course, participants will learn how to identify factors which increase a resident's risk for falls, as well as strategies for reducing falls and fall related injuries. 1 CEU. Provided in English.

Fall Protection

This Fall Protection program provides the information employees need to work safely when they are off the ground and satisfies the major training requirements in the OSHA Standard on Fall Protection. Provided in English and Spanish.

Fall Protection Training

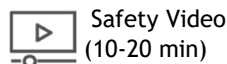

This training reviews the basics of fall protection, including identifying fall hazards, when to use fall protection, and how to use personal fall arrest systems. Provided in English.

Ron Coons
(60 min)
\$300

Fall Protection in Construction Environments

This Fall Protection in Construction Environments program provides the information employees need to work safely when they are off the ground and satisfies the major training requirements in the OSHA Standard on Fall Protection. Provided in English and Spanish.

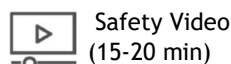

Family Support - Helping Residents and Families Remain Connected

This course covers ways to engage supportive family members in the lives of the residents through family visits, gifts, outings, facility social programs and conscientious involvement in the Care Planning process. 1 CEU. Provided in English.

Fighting Fatigue in the Workplace

This program on Fighting Fatigue in the Workplace discusses the causes of fatigue, the hazards that it creates and what employees can do to avoid it. Provided in English.

Fire Extinguisher Safety

This training describes the different stages and classes of fire and which type of extinguisher is appropriate for each. It also covers the Pull, Aim, Squeeze, and Sweep (PASS) technique, the limitations of fire extinguishers, and when to evacuate. Provided in English and Spanish.

Fire Prevention

This training covers fire prevention techniques. Designed for managers, it includes evacuation methods, fire extinguisher use, employee training, and development of a fire prevention plan. Provided in English.

Ron Coons
(45 min)
\$300

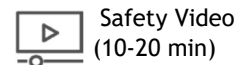

Fire Prevention in Healthcare Facilities

This Fire Prevention in Healthcare Facilities program looks at how fires in healthcare facilities start, and what can be done to prevent them, as well as what employees should do in case of a fire emergency. Provided in English and Spanish.

Fire Prevention in the Office

This program on Fire Prevention in the Office looks at what causes office fires and what can be done to prevent them as well as what employees should do in case of a fire emergency. Provided in English and Spanish.

First Aid/CPR/AED

For adults, children, and infants. This program on First Aid discusses what employees should do and not do when someone is sick or injured, and how to determine when they should call for emergency assistance. Provided in English.

Ron Coons
(6 hours)
\$95/student

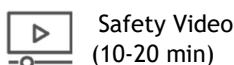

First Aid in Construction Environments

This program on First Aid in Construction Environments discusses what employees should do and not do when someone is sick or injured, and how to determine when they should call for emergency assistance. Provided in English and Spanish.

Fitness and Wellness

This program on Fitness and Wellness shows employees how small changes in lifestyle can produce big benefits. While wellness is a gradual process, eliminating negative lifestyle factors can quickly begin to improve employees' health. Provided in English and Spanish.

Flammables & Explosives in the Laboratory

This program discusses the nature of flammable and explosive materials, their hazards and the proper handling procedures and personal protective equipment that should be used when working with these substances. Provided in English.

Forklift Operator Training

This awareness-level course includes information on various types of powered industrial trucks, safe driving and loading, and the principles of stability and load capacity. Provided in English.

Ron Coons
(2 Hours)
½ day of training = \$400.
Full day of training = \$800

Forklift Operator Training - Classroom Certification

This training covers a regulatory overview, provides general guidelines on forklift operation, and general safety guidelines (including rough terrain forklifts). This training fulfills the classroom portion of the 29 CFR 1910.178 regulation. Provided in English.

Forklift Safety - Industrial Counterbalance Lift Trucks

This program on Forklift Safety: Industrial Counterbalance Lift Trucks has been designed to introduce employees to the forklift they'll be using, explain its capabilities and limitations, and show them how to operate and maintain it properly. Provided in English and Spanish.

Forklift/Powered Industrial Truck Safety

This program is specifically created to involve employees in the process of understanding forklift operation and to help facilities in fulfilling the OSHA Powered Industrial Truck Standard (29 CFR, 1910.178) training requirements. Provided in English and Spanish.

Gap Analysis

This analysis involves the comparison of actual performance with potential or desire performance. Provided in English.

Ron Coons
(Time TBD)
½ day of training = \$400.
Full day of training = \$800

General Safety Overview for Health Care Providers

This training provides a general overview of healthcare tasks, including hazards and controls related to lifting and ergonomics, infectious diseases, chemical use, emergency preparedness, and slips, trips, and falls. (Health Care Providers). Provided in English.

GHS Container Labeling

This program on GHS Container Labeling discusses the six types of information contained on a GHS label, and the differences between GHS labels and other types of chemical hazard labels. Provided in English and Spanish.

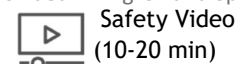

GHS Labeling in Construction Environments

This program on GHS Container Labeling in Construction Environments discusses the six types of information contained on a GHS label, and the differences between GHS labels and other types of chemical hazard labels. Provided in English and Spanish.

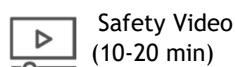

GHS Safety Data Sheets

This GHS Safety Data Sheets program reviews the composition of GHS Safety Data Sheets, the information that's contained in each section and how SDSs are different from Material Safety Data Sheets. Provided in English and Spanish.

GHS Safety Data Sheets in Construction Environments

This GHS Safety Data Sheets in Construction Environments program reviews the composition of GHS Safety Data Sheets, the information that's contained in each section and how SDSs are different from Material Safety Data Sheets. Provided in English and Spanish.

GHS Safety Data Sheets in the Laboratory

This GHS Safety Data Sheets in the Laboratory program reviews the composition of GHS Safety Data Sheets, the information that's contained in each section and how SDSs are different from Material Safety Data Sheets. Provided in English.

GMP: Allergen Controls

This training discusses how food processing facilities can prevent cross-contamination from food allergens by implementing proper controls. It includes the 8 major food allergens, written plan requirements, and FDA food labeling requirements. Provided in English.

GMP: Facility Design for Compliance

This training describes the role of facility design in a GMP program. It includes tools to improve the design and hygiene practices in and around food processing facilities. Provided in English and Spanish.

GMP: Keeping it Clean

This training covers recognizing and addressing common contamination threats to food production. It includes effective hygiene practices, how to identify sources of contaminants and food safety risks and preventing introduction of contaminants. Provided in English and Spanish.

GMP: Process Controls

This training describes the role of process controls in a GMP program. It includes control of raw materials, manufacturing controls, defects, equipment, utilities, and the FDA's effective measures. Provided in English and Spanish.

Grievances - Guidelines for Healthcare Providers

Grievances, complaints and concerns arise in even the best of facilities. It is how the facility responds and how empowered residents and their families feel following a grievance report that ultimately will define the quality of the facility. 1 CEU. Provided in English.

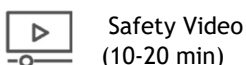

Hand & Power Tool Safety Video

This program on Hand and Power Tool Safety discusses hand and power tool hazards and shows employees the equipment and safe practices they can use to prevent injuries. Provided in English and Spanish.

Hand & Power Tool Safety in Construction Environments

This program on Hand and Power Tool Safety in Construction Environments discusses hand and power tool hazards and shows employees the equipment and safe practices they can use to prevent injuries on a job site. Provided in English and Spanish.

Hand and Power Tool Training

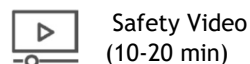

This training includes information on the types of commonly used tools, the importance of proper use and handling of tools, identifying and communicating hazards, and proper selection and storage. Provided in English.

Ron Coons
(30 min)
\$300

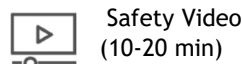

Hand, Wrist & Finger Safety

This program on Hand, Wrist and Finger Safety reviews the hand, wrist and finger hazards that employees may encounter in their workplace and show them the equipment and safe work practices they can use to prevent injuries. Provided in English and Spanish.

Hand, Wrist & Finger Safety in Construction Environments

This program on Hand, Wrist and Finger Safety in Construction Environments review the hand, wrist and finger hazards that employees may encounter on a job site and show them the equipment and safe work practices they can use to prevent injuries. Provided in English and Spanish.

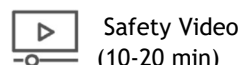

Handling A Sexual Harassment Investigation

This program looks at a company's legal responsibility to prevent and deal with sexual harassment incidents, examines investigation policies and procedures and discusses how to interview apparent victims, alleged harassers and potential witnesses. Provided in English and Spanish.

Handling Compressed Gas Cylinders in the Laboratory

This program on Handling Compressed Gas Cylinders in the Laboratory examines how gas cylinders work, the hazards that are associated with them and the need for caution when using or storing a cylinder. Provided in English.

Hazard Communication Awareness for Employees

Compliant with OSHA's Hazard Communication Standard, this training addresses hazard communication programs, chemical container labeling, safety data sheets (SDS), safety precautions, and first aid. Provided in English and Spanish.

Hazard Communication Awareness for Managers

This training reviews management requirements surrounding hazard communication, including GHS, written training programs, labeling standards, hazardous materials inventories, Safety Data Sheets (SDSs), and common safety controls. Provided in English and Spanish.

Hazard Communication in Auto Service Facilities

This program on Hazard Communication in Auto Service Facilities both introduces employees to the Hazard Communication regulations and provides training on the various groups of chemicals found in the automotive environment. Provided in English and Spanish.

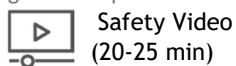

Hazard Communication in Cleaning and Maintenance Facilities

This program on Hazard Communication in Cleaning and Maintenance Operations both introduces employees to the Hazard Communication regulations and provides training on the various groups of chemicals found in the cleaning and maintenance environment. Provided in English and Spanish.

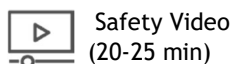

Hazard Communication in Construction Environments

This program on Hazard Communication in Construction Environments both introduces employees to the Hazard Communication regulations and provides training on the various groups of chemicals found in the construction environment. Provided in English and Spanish.

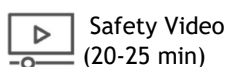

Hazard Communication in Healthcare Facilities

This program on Hazard Communication in Healthcare Facilities both introduces employees to the Hazard Communication regulations and provides training on the various groups of chemicals found in the healthcare environment. Provided in English and Spanish.

Hazard Communication in Industrial Facilities

This program on Hazard Communication in Industrial Facilities both introduces employees to the Hazard Communication regulations and provides training on the various groups of chemicals found in the industrial environment. Provided in English and Spanish.

Hazard Communication in the Hospitality Industry

This program on Hazard Communication in Hospitality Environments both introduces employees to the Hazard Communication regulations and provides training on the various groups of chemicals found in the hospitality environment. Provided in English and Spanish.

Hazard Recognition

This program on Hazard Recognition provides the information employees need to help prevent workplace accidents and injuries from occurring. Provided in English and Spanish.

Hazardous Material Labels

This program on Hazardous Materials Labels is designed to help employees understand the characteristics of different labeling systems and the ways that each convey information. Provided in English and Spanish.

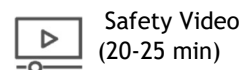

Hazardous Waste Management

This training satisfies Federal EPA requirements for handling hazardous waste at a facility. It includes hazardous waste regulations, waste determination, generator status, storage, labels, inspections, accumulation limits, and waste pickup. Provided in English and Spanish.

HAZWOPER Accidental Release Measures and Spill Cleanup Procedures

This program is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). The course discusses the plans and procedures necessary to safely contain and cleanup a hazardous materials spill. Provided in English and Spanish.

HAZWOPER Confined Space Entry

This program is designed to help employees understand how to reduce or eliminate potential exposure to hazardous materials in confined space work environments as required by OSHA's HAZWOPER regulation (29 CFR 1910.120). Provided in English and Spanish.

HAZWOPER Dealing with the Media in Emergency Situations

This program is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). This course instructs employees on the proper ways of interacting with the media during an emergency situation. Provided in English and Spanish.

Safety Video
(10-20 min)

HAZWOPER Decontamination Procedures

This program on is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). The course helps employees understand how to reduce or eliminate potential exposure to hazardous materials in their work environments. Provided in English and Spanish.

Safety Video
(15-20 min)

HAZWOPER Electrical Safety in HAZMAT Environments

This program helps facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Discusses the hazards of uncontrolled energy in hazardous materials environments, and how to reduce or eliminate these potential hazards. Provided in English and Spanish.

Safety Video
(20-30 min)

HAZWOPER Emergency Response Plan

This program is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Discusses how emergency planning can reduce or eliminate potential exposure to hazardous materials in crisis situations. Provided in English and Spanish.

Safety Video
(15-20 min)

HAZWOPER Exposure Monitoring and Medical Surveillance

Part of the HAZWOPER Annual Retraining Series discusses various types of exposure monitoring equipment and techniques. Includes medical surveillance and how it is used to evaluate the health of anyone who regularly works around hazardous materials. Provided in English and Spanish.

Safety Video
(20-30 min)

HAZWOPER Fire Prevention

This program on HAZWOPER Fire Prevention is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). This course helps employees understand the hazards of fire when combined with hazardous materials. Provided in English and Spanish.

Safety Video
(20-25 min)

HAZWOPER Handling Hazardous Materials

This program on Handling Hazardous Materials is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Discusses the nature and behavior of hazardous chemicals and reducing or eliminating potential exposure. Provided in English and Spanish.

Safety Video
(20-25 min)

HAZWOPER HAZMAT Labeling

This program on HAZMAT Labeling is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Helps employees understand and use different labeling systems to reduce or eliminate potential exposure. Provided in English and Spanish.

Safety Video
(20-25 min)

HAZWOPER Heat Stress

This program on HAZWOPER Heat Stress is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Discusses the need to guard against heat-related illnesses and what steps they can take to protect themselves. Provided in English and Spanish.

Safety Video
(20-25 min)

HAZWOPER Introduction to HAZWOPER Retraining

Part of the HAZWOPER Annual Retraining Series, reminds employees who deal with hazardous materials of the importance of identifying, evaluating and controlling chemical hazards. Provided in English and Spanish.

Safety Video
(20-25 min)

HAZWOPER Medical Surveillance Programs

This program is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Discusses types of medical surveillance and how it is used to evaluate the health of anyone who regularly works around hazardous materials. Provided in English and Spanish.

Safety Video
(10-20 min)

HAZWOPER Monitoring Procedures and Equipment

This program is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Discusses the importance of detecting hazardous materials, and the equipment and procedures used in the process. Provided in English and Spanish.

Safety Video
(10-20 min)

HAZWOPER Personal Protective Equipment

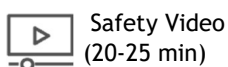

This program helps facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Instructs employees on the selection and use of personal protective equipment in environments where hazardous materials are present. Provided in English and Spanish.

Safety Video
(10-20 min)

HAZWOPER Personal Protective Equipment and Decontamination Procedures

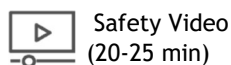

Part of the HAZWOPER Annual Retraining Series instructs employees on the appropriate use of personal protective equipment (such as chemical protective clothing) and how to remove contaminants that accumulate on clothing and equipment. Provided in English and Spanish.

Safety Video
(20-25 min)

HAZWOPER Respiratory Protection and Safety

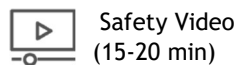

This program helps facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120) and understand how the use of respiratory protection can reduce or eliminate potential exposure to hazardous materials in their work environments. Provided in English and Spanish.

Safety Video
(20-25 min)

HAZWOPER Safety Data Sheets in HAZWOPER Environments

This program helps facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Educates employees about the GHS SDS format and reviews how the information in an SDS can help them work safely with potentially hazardous chemicals. Provided in English and Spanish.

Safety Video
(15-20 min)

HAZWOPER Safety Orientation

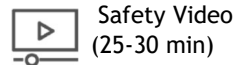

This program helps facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Instructs employees about how to reduce or eliminate potential exposure to hazardous materials in their work environments. Provided in English and Spanish.

Safety Video
(10-20 min)

HAZWOPER Site Safety and Health Plan

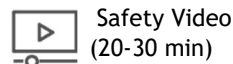

This program helps facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120), summarizes the various aspects of the Plan, and how the Plan helps to protect the health of anyone who regularly works around hazardous materials. Provided in English and Spanish.

Safety Video
(25-30 min)

HAZWOPER Understanding Chemical Hazards

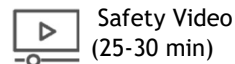

Part of the HAZWOPER Annual Retraining Series introduces employees to chemical hazard regulations and provides training on the various types of hazardous chemicals found in industrial environments. Provided in English and Spanish.

Safety Video
(20-30 min)

HAZWOPER Understanding HAZWOPER

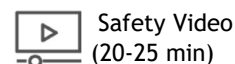

This program helps facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Explains the regulations and to help employees begin to reduce or eliminate potential exposure to hazardous materials in their work environments. Provided in English and Spanish.

Safety Video
(25-30 min)

HAZWOPER Work Practices and Engineering Controls

This program helps facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). Helps employees to understand the nature and behavior of hazardous chemicals, and how to reduce or eliminate potential exposure to hazardous materials. Provided in English and Spanish.

Safety Video
(20-25 min)

Health and Wellness

This training describes how to make informed decisions about diet, exercise, and lifestyle that impact health and quality of life. Provided in English and Spanish.

Online
(60 min)

Hearing Conservation and Safety

This program on Hearing Conservation and Safety assists employers in complying with the OSHA standard while providing workers with the information they need to recognize and avoid noise hazards. Provided in English and Spanish.

Safety Video
(10-20 min)

Hearing Conservation

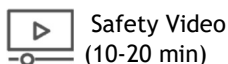

This training teaches employees about anatomy of the ear, the causes of hearing loss, the elements of hearing conservation programs, methods of measuring noise, and limits or controls for exposure. Provided in English.

Ron Coons
(30min)
\$300

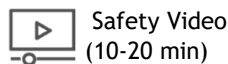

Heat Stress

This program on Heat Stress reviews how heat affects the body, the steps employees can take to prevent heat stress, and elementary first aid that can be given to a worker who has been affected by a heat-related illness. Provided in English and Spanish.

Heat Stress in Construction Environments

This program on Heat Stress in Construction Environments reviews how heat affects the body, the steps employees can take to prevent heat stress, and elementary first aid that can be given to a worker who has been affected by a heat-related illness. Provided in English and Spanish.

Heat Stress Prevention

This training covers causes of heat stress and heat illness, preventive measures, and requirements for a heat stress prevention program. Provided in English and Spanish.

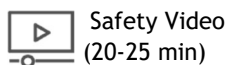

HIPAA Awareness

This training covers the Health Insurance Portability and Accountability Act (HIPAA) requirements for personal health information (PHI). It includes guidelines for proper handling to avoid costly violations. Provided in English and Spanish.

HIPAA Rules and Compliance

This program on HIPAA Rules and Compliance defines HIPAA terms, explains the regulation and discusses what business entities and employees in healthcare-related fields need to do to comply with them. Provided in English.

Hiring Best Practices

This training introduces techniques to improve a company's hiring and onboarding processes. Topics covered include finding and attracting the right candidates, interviewing tips, and onboarding advice. Provided in English.

Horseplay Prevention

This training outlines examples of practical jokes on the job and the dangerous consequences that can result. Provided in English and Spanish.

Hot Work Safety and the Permitting Process

This program on Hot Work Safety and the Permitting Process discusses the hazards encountered in hot work and focuses on how employees can use the permitting process and other safe practices to perform hot work tasks safely. Provided in English and Spanish.

Hours of Service

This training outlines the hours of service rules, including the sleep regulation cycle, shift and rest break requirements, the restart rule, and recordkeeping. (CMV Series). Provided in English.

Hydrogen Safety Awareness

This training address hydrogen fuel cell electric vehicles, including basic properties and behavior of hydrogen, how a hydrogen fuel cell electric system works, and the safety systems and response procedures associated with hydrogen. Provided in English.

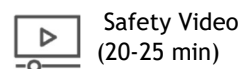

Hydrogen Sulfide Safety Awareness

This training describes the hazards and health effects of hydrogen sulfide as well as detection methods, PPE, controls, and exposure response. Provided in English.

I2P2 - Injury and Illness Prevention Programs

This program provides employees with important information on how this organized approach to workplace safety can significantly reduce accidents and injuries, and how the workers themselves can play a major role in making the program work. Provided in English and Spanish.

Improving Hand Hygiene in the Healthcare Setting

This course featuring Dr. Boyce, an internationally recognized expert on hand hygiene, covers the guidelines for hand hygiene, barriers to compliance and how can you be an ambassador for infection prevention in your office or facility. 1 CEU. Provided in English.

In Pursuit of Control - Autonomy, Self-Determination and the Empowered Resident

This course covers how to satisfy residents need to control their environment when they live within an environment which often limits the opportunity for choice. 1 CEU. Provided in English.

In Pursuit of Intimacy - Sexuality and the Aging Resident

Expressions of intimacy among nursing home residents - especially those with cognitive impairment and/or dementia are often ignored, responded to with prejudice or responded to with inconsistency due to lack of understanding. 1 CEU. Provided in English.

Incident Investigation and Analysis

This training covers the incident investigation process, root cause analysis, and the importance of conducting investigations after each incident. It is designed for management employees and those assigned to conduct investigations. Provided in English.

Ron Coons

(1-4 Hour)

½ day of training = \$400.

Full day of training = \$800

Indoor Air Quality

This program on Indoor Air Quality discusses the health hazards associated with contaminated indoor air, the most common contaminants, where they come from, and what employees can do to help keep the air in their workplace clean and healthy. Provided in English and Spanish.

Industrial Ergonomics

This program on Industrial Ergonomics provides employees with the information they need to understand ergonomic hazards, recognize them in their workplace and know how to avoid them. Provided in English and Spanish.

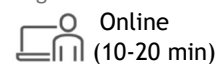

Industrial Fire Prevention

This program on Industrial Fire Prevention looks at what causes industrial fires, and what can be done to prevent them as well as what employees should do in case of a fire emergency. Provided in English and Spanish.

Information Security

Addresses the importance of information security for businesses. This training covers working with confidential information, physical safeguards, types of cyber risks and how to prevent them, protecting company assets, and reporting incidents. Provided in English.

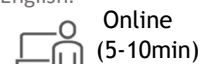

Interdisciplinary Care Planning

The Interdisciplinary Treatment Team (IDT) needs to view the Care Plan as a resident centered collaborative effort. Learn how to utilize the Care Plan, working together to enhance the care and quality of resident life. 1 CEU. Provided in English.

Intersections, Turns, and Lane Changes for CMV Drivers

This training covers best practices for CMV drivers when navigating intersections, making turns, and performing lane changes. It includes procedures for each maneuver, common dangers, and the importance of defensive driving. (CMV Series). Provided in English.

Introduction to GHS

This program on the Introduction to GHS reviews what the Globally Harmonized System is all about, why OSHA adopted the GHS, and the phase-in dates for implementing the GHS. Provided in English and Spanish.

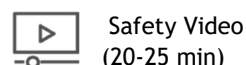

Introduction to GHS for Construction Workers

This program on the Introduction to GHS for Construction Workers reviews what the Globally Harmonized System is all about, why OSHA adopted the GHS, and the phase-in dates for implementing the GHS. Provided in English and Spanish.

Introduction to OSHA

This program on Introduction to OSHA discusses the rights and responsibilities employees and employers have under OSHA and how the agency enforces its regulations. Provided in English.

Investigating Harassment Claims for Managers

This manager training covers conducting a harassment investigation, including how to handle complaints, interview witnesses, and take corrective action. Prerequisite: Anti-Harassment Training. Provided in English and Spanish.

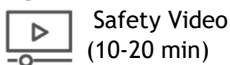

Laboratory Ergonomics

This Laboratory Ergonomics program discusses the need to set up work areas correctly, as well as how to minimize the strain of using laboratory equipment, tools and instruments. Provided in English.

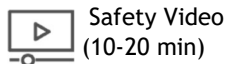

Laboratory Hoods

This Laboratory Hoods program emphasizes how to properly use laboratory hoods and how to test them to ensure correct functioning as well as discusses how hoods can protect an experiment, the facility, and most importantly, the employee. Provided in English.

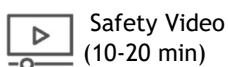

Ladder Safety

This program on Ladder Safety reminds employees not to take using ladders for granted, and to take the appropriate precautions when using ladders. Provided in English and Spanish.

Ladder Safety in Construction Environments

This program on Ladder Safety in Construction Environments reminds employees not to take using ladders for granted, and to take the appropriate precautions when using ladders. Provided in English and Spanish.

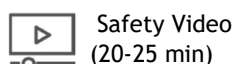

Lead Awareness

This training addresses the health risks associated with lead as well as how organizations are required to keep employees safe by identifying, monitoring, and controlling lead exposures. Provided in English.

Lead Exposure in Construction Environments

This program on Lead Exposure in Construction Environments provides employees with the information they need to understand lead hazards and the safety regulations that address them. Provided in English and Spanish.

Lead Exposure in General Industry

This program created specifically for OSHA's Lead Standard (for General Industry), is designed for employees in general industry environments where lead and lead-based materials are found. Provided in English and Spanish.

Litigation Risk for Skilled Nursing Facilities - Issues and Risk Management Strategies

This course educates facility staff about the issues increasingly relied upon by attorneys and government prosecutors seeking to file actions against providers for elder abuse and other tort claims under the federal false claims act. 1 CEU. Provided in English.

Loading Dock and Wheel Chock Safety

This training helps employees to identify potential risks associated with loading docks. It also discusses best practices for loading dock safety and effectively reducing accidents. Provided in English.

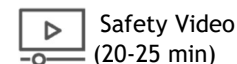

Lockout and Tagout Training

This training describes the importance and elements of Lockout/Tagout programs. It includes shutdown steps, audit procedures, and the identification and control of hazardous energy sources in the workplace. Provided in English.

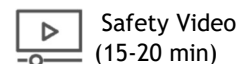

Lock-Out/Tag-Out Safety Video

This program on Lock-Out/Tag-Out provides employees with the information they need to avoid energy-related hazards, while at the same time helping employers meet OSHA training requirements. Provided in English and Spanish.

Machine Guard Safety Video

This program on Machine Guard Safety is designed to provide employees with a thorough understanding of the machinery hazards that they may face, as well as how to avoid these hazards. Provided in English and Spanish.

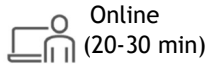

Machine Safeguarding Training

This training describes common motion hazards in the workplace and demonstrates the basic goals of machine safeguarding programs and practices. Provided in English.

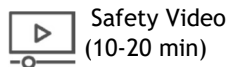

Managing the Survey Process - A Guide for Health Care Providers

This course covers how to adequately prepare for the survey, manage the survey, and accurately present the best of all that you do for your residents. 1 CEU. Provided in English.

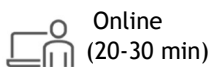

Materials Handling Safety

This program on Materials Handling Safety provides the information employees need to work safely when handling and moving various types of materials. Provided in English and Spanish.

Meaningful Engagement - Creating a Failure Free Activity Program

In an ideal world, the delivery of Activity programs and services would be based on the needs, interests, personal preferences and customary routines of our residents. True? Of course! But can this "ideal" become a "reality"? 1 CEU. Provided in English.

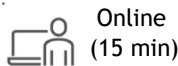

Medical Records Documentation - What to (and What NOT) to Document

Medical records documentation is a vital aspect of the overall care that we provide to our residents. Skilled documentation will support the quality care that we provide. Incomplete, or inappropriate documentation may reduce reimbursement, precipitate survey deficiencies and may even result in substantial fines and penalties. 1 CEU. Provided in English.

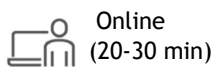

Modified Transitional Duty for Management

This training describes the benefits of transitional duty and return-to-work programs for injured employees as well as typical program components and implementation. Provided in English and Spanish.

Montessori Based Activity Programs and Services - An Emerging Best Practice

This course discusses how The Montessori method can afford individuals with dementia the opportunity to remain engaged in meaningful life activities at their highest level. 1 CEU. Provided in English

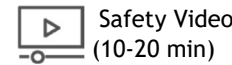

Office Ergonomics

This program on Office Ergonomics addresses ergonomic problems as well as potential adverse effects and pragmatic solutions to these problems in an office environment. Provided in English and Spanish.

Office Safety

This program on Office Safety shows employees that hazards really do exist in an office environment, and how important it is to use good safety practices as they go about their work. Provided in English and Spanish.

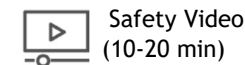

Office Workstation Ergonomics

This training outlines proper workplace ergonomics and how equipment, posture, and personal and environmental factors can affect ergonomic health. Provided in English and Spanish.

Orientation to Laboratory Safety

This Orientation to Laboratory Safety program shows both new employees and seasoned veterans the importance of safety in the laboratory as well as reviews the OSHA regulations and good safety practices that apply to the laboratory environment. Provided in English.

OSHA 10-Hour Construction Course

OSHA 10 Construction training covers specific OSHA regulations and requirements as they apply to the Construction Industry. It covers safety and health hazards workers may face on construction work sites, placing special emphasis on hazard identification, avoidance, control and prevention. Provided in English.

Ron Coons
(Day and a ½ of training.
\$1,700 and
\$20/Person (for ID cards and
handouts.

OSHA 10-Hour General Industry Course

To maintain a healthy and safe work environment, OSHA recommends employees in various industries participate in workplace safety training. The OSHA 10 General Industry course is designed to familiarize workers with OSHA standards as well as safety and health hazards common to the workplace. Including identifying, avoiding, controlling, and preventing jobsite hazards. Provided in English.

Ron Coons
(Day and a half of training.
\$1,700 and
\$20/Person (for ID cards and
handouts.

OSHA 30-Hour Construction Course

OSHA 30-Hour Construction training is a method for educating construction workers and supervisors about OSHA safety standards. This course promotes a safe and healthful work environment by teaching workers how to identify, predict and avoid hazards in the workplace. Provided in English.

Ron Coons
(4 and a half day of training.
\$4,000 and
\$20/Person (for ID cards and
handouts.

OSHA 30-Hour General Industry Course

This OSHA 30-Hour General Industry training ensures that workers at all responsibility levels and across all industries receive education about common workplace hazards with this OSHA 30 General Industry Training. Provided in English.

Ron Coons
(4 and a half day of training.
\$4,000 and
\$20/Person (for ID cards and
handouts.

OSHA Formaldehyde Standard

The OSHA Formaldehyde Standard program provides training that is required by this standard and focuses on the rules and procedures that the standard establishes for working with this potentially dangerous chemical. Provided in English.

Safety Video
(10-20 min)

OSHA Recordkeeping for Employees

This program helps facilities comply with OSHA's Recordkeeping regulation (29 CFR Part 1904). It shows employees actual workplace incidents that demonstrate how to report accidents and what information they need to furnish. Provided in English and Spanish.

Safety Video
(15-20 min)

OSHA Recordkeeping for Managers and Supervisors

This program helps facilities comply with OSHA's Recordkeeping regulation (29 CFR Part 1904). Covers workplace incidents that demonstrate a manager's responsibilities in documenting and reporting recordable accidents. Provided in English and Spanish.

Safety Video
(20-25 min)

Our Angry Resident - Causes and Creative Approaches to Care

This course covers the challenges of patient anger and how to identify the causes or antecedents, in order to address the situation as well as to prevent, if possible, its reoccurrence. 1 CEU. Provided in English.

Online
(20-30 min)

Overhead Crane Safety

This training introduces the primary safety issues associated with overhead cranes and rigging procedures. Topics includes proper hoist and rigging inspection, sling selection, and safe crane operation. Provided in English.

Online
(45-50 min)

Patient and Resident Handling

This training covers patient and resident handling. It includes information on risk factors, written plans, transfer and handling equipment, and guidelines. Provided in English and Spanish.

Online
(45 min)

Person Directed Care - Beyond the Medical Model

This course covers an overview of Person Directed Care. This model focuses on how staff can come to know their residents as individuals - and then utilize this understanding in the delivery of individualized, resident centered care. 1 CEU. Provided in English.

Online
(20-30 min)

Personal Protective Equipment

This program explains the proper use of personal protective equipment and to help facilities in fulfilling OSHA's Personal Protective Equipment Standards (29 CFR, 1910.132, 133, 134, 135, 136, 137, 138) training requirements. Provided in English and Spanish.

Safety Video
(25-30 min)

Personal Protective Equipment for Management

This manager training provides an overview of personal protective equipment (PPE). It includes the requirements for wearing PPE, the various types, care and maintenance, and employer responsibilities. Provided in English and Spanish.

Online
(45-50 min)

Personal Protective Equipment Awareness Training for Employees

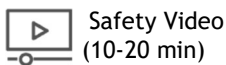

This training covers the importance of personal protective equipment (PPE), the most common types, and employee responsibilities to wear and care for PPE. It includes head, eye and face, hearing, respiratory, body, hand, and foot protection. Provided in English.

Ron Coons
(30-60 min)
\$300

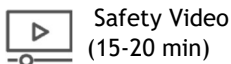

Personal Protective Equipment in Construction Environments

This program for Construction Environments helps employers in the construction industry meet OSHA requirements. It provides construction workers with the information they need to avoid injury on the job site by using appropriate PPE. Provided in English and Spanish.

Planning for Laboratory Emergencies

This program on Planning for Laboratory Emergencies discusses how to minimize damage and prevent injuries if an emergency should occur. Provided in English.

Portable Ladder Safety

This training addresses ladder safety best practices. It includes planning, selection, inspection, maintenance, storage, and safe work practices for stepladders, extension ladders, articulated ladders, and mobile ladder stands. Provided in English.

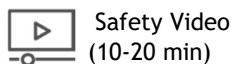

Preventing Abuse and Neglect - What WE NEED TO KNOW

This course covers the various types of abuse and neglect, and how to define the process for mandated abuse reporting. The content of this class is appropriate for all who provide care for at risk older adults. 1 CEU. Provided in English.

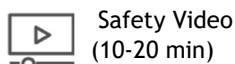

Preventing Contamination in the Laboratory

This program on Preventing Contamination in the Laboratory emphasizes the need to recognize situations that could lead to contamination and discusses what can be done to prevent contamination from occurring. Provided in English.

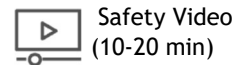

Preventing Sexual Harassment for Employees

This program on Preventing Sexual Harassment for Employees provides employees with the information they need to help prevent sexual harassment in their workplace, and deal with it effectively if it does occur. Provided in English and Spanish.

Preventing Sexual Harassment for Managers and Supervisors

This program provides managers with the information they need to identify situations that could lead to sexual harassment, help prevent harassment in their departments, and deal with it effectively if it does occur. Provided in English and Spanish.

Preventing Workplace Discrimination for Employees

This program on Preventing Workplace Discrimination for Employees discusses different types of discriminatory behavior, its causes and what employees can do prevent it in their workplace. Provided in English and Spanish.

Resident Rights - A Guide for Practical Application

This course discusses the Resident Rights and explores practical implications of these rights through guided discovery and the presentation of real-life examples. 1 CEU. Provided in English.

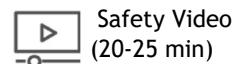

Respiratory Protection

This training course includes information on the requirements of a respiratory protection program, types and uses, selection based on hazards, fit test requirements, and proper cleaning procedures. Provided in English.

Respiratory Protection and Safety

This program provides employees with important information needed in order to understand the risks associated with airborne contaminants and helps facilities in complying with requirements of the OSHA Respiratory Standard. Provided in English and Spanish.

Responsible Alcohol Service

This training covers the laws governing the sale and use of alcohol. It includes the effects of alcohol, responsibilities and best practices for sale and service, communication skills, and what to do in the event of an incident. Provided in English and Spanish.

Restraint Reduction - Behavioral Alternatives to Physical and Chemical Restraint

This course examines regulations related to restraints as well as provide powerful approaches for the care of our more challenging residents without the use of physical or chemical restraints. 1 CEU. Provided in English.

Rigging Safety

This program on Rigging Safety is designed to remind employees that over 90% of crane-related accidents are caused by human error and that they are the key to preventing these incidents. Provided in English and Spanish.

Rigging Safety in Construction Environments

This program on Rigging Safety in Construction Environments is designed to remind employees that over 90% of crane-related accidents are caused by human error and that they are the key to preventing these incidents. Provided in English and Spanish.

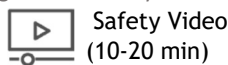

Rollover Prevention for Cargo Tank Drivers

This training discusses cargo tank rollovers, including how they happen, why they happen, and how to avoid rollovers. It covers vehicle design, load effects, vehicle maintenance, highway factors, and driver factors. (CMV Series). Provided in English.

Safe Handling of Laboratory Glassware

This program on Safe Handling of Laboratory Glassware discusses the nature of various types of glassware, and the problems it can cause as well as the need for employees to use and maintain laboratory glassware safely. Provided in English.

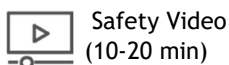

Safe Lifting Online Training

This training course includes information on the importance of safe lifting, the causes of back injuries and discomfort, and proper posture and lifting techniques with a focus on injury prevention. Provided in English and Spanish.

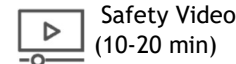

Safe Lifting Safety Video

This program on Safe Lifting provides the information employees need to protect their backs when they are lifting and carrying. Provided in English and Spanish.

Safe Lifting in Construction Environments

This program on Safe Lifting in Construction Environments provides the information employees need to protect their backs when they are lifting and carrying. Provided in English and Spanish.

Safety Audits

This program on Safety Audits provides employees with an understanding of the goals and procedures that are involved in a safety audit, shows them how they can help in the audit process and describes specific safe work practices. Provided in English and Spanish.

Safety Awareness for New Employees

This program on Safety Awareness for New Employees addresses many of the most important safety issues confronting employees, so new hires can start working safely right away. Provided in English and Spanish.

Safety Belt Awareness for CMV Drivers

This training reviews safety belt usage statistics among CMV drivers. It includes common misconceptions and the reasons why using your safety belt is always the best option. (CMV Series). Provided in English.

Safety Committee Formation

Includes information on a safety committee's purpose and responsibilities, forming a committee, and running a safety committee meeting. Provided in English and Spanish.

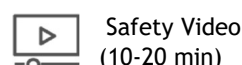

Safety Housekeeping & Accident Prevention/ Job Hazard Analysis

Safety Housekeeping and Accident Prevention provides workers with the information they need to recognize on-the-job hazards and explains how they can prevent them. Provided in English.

Safety Orientation

This program on Safety Orientation discusses common hazards that can be encountered on a job site and the safe practices and equipment that workers can use to avoid injuries. Provided in English and Spanish.

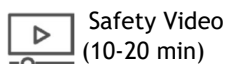

Safety Orientation in Construction Environments

This program on Safety Orientation in Construction Environments discusses common hazards that can be encountered on a job site and the safe practices and equipment that workers can use to avoid injuries. Provided in English and Spanish.

Safety Showers & Eye Washes

This program on Safety Showers and Eye Washes reviews situations where safety showers and eye washes should be used, as well as how to use them properly. Provided in English and Spanish.

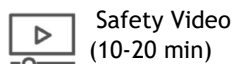

Safety Showers & Eye Washes in the Laboratory

This program on Safety Showers and Eye Washes in the Laboratory reviews the correct ways to use this equipment and emphasizes the need for quick action after a chemical splash or spill. Provided in English.

Scissor Lifts in Industrial and Construction Environments

This program introduces employees to scissor lifts, make them aware of the hazards associated with these lifts and give them the information they need to work safely using a scissor lift or working near one. Provided in English and Spanish.

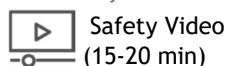

Silica Exposure Prevention

This training addresses the health risks associated with silica dust and who is at risk. It includes the symptoms of silica dust exposure, how to perform hazard assessments and monitoring, and necessary controls. Provided in English.

Silica Safety in Industrial and Construction Environments

This program explains the hazards that are associated with silica dust, reviews the OSHA standards for industry and construction, and shows employees what they can do to protect themselves from silica dust on the job. Provided in English and Spanish.

Sleep Disorders - Working with Sleep Disorders and the Elderly SNF Resident

This course reviews research findings, how to implement a treatment plan for sleep disorders and identify some of the challenges associated with establishing a successful sleep program within the SNF setting. 1 CEU. Provided in English.

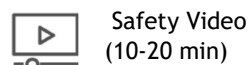

Slip, Trip and Fall Prevention for Employees

This training discusses how to avoid and prevent potential slip, trip, and fall hazards in the workplace, including effective strategies and best practices. Provided in English and Spanish.

Slips, Trips & Falls

This program on Slips, Trips and Falls shows employees the situations that can lead to slips, trips and falls, and what they can do to avoid or prevent these accidents. Provided in English and Spanish.

Slips, Trips and Falls in Construction Environments

This program on Slips, Trips and Falls in Construction Environments shows employees the situations that can lead to slips, trips & falls in construction environments, and what they can do to avoid or prevent these accidents. Provided in English and Spanish.

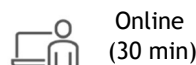

Social Media and Email

This training discusses the use of social media in the workplace, email policies, appropriate content, proper conduct, and information security. Provided in English and Spanish.

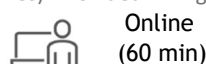

Space Management for CMV Drivers

This training educates drivers on proper following distance, including minimizing the risks posed by blind spots, performing backing operations, navigating intersections, and passing through areas with low overhead clearance. (CMV Series). Provided in English.

Speed and Stopping Distance for CMV Drivers

This training reviews the four actions which are required to slow and stop a vehicle. It includes information on how road, weather, vehicle, and driver condition impact stopping distance. (CMV Series). Provided in English.

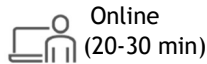

Storm Water Management Best Practices

This training covers best practices associated with storm water management. It includes information on common pollutants, the permitting process, and guidelines for housekeeping and storage of water.

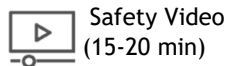

Stress Management - Managing Stress and Preventing Staff Burnout!
